Boston, MA
U.S. Citizen

Tech Skills	Fluent in C#, Java, Javascript, Python, Swift Mobile Development (Android, iOS, React Native) Game Development (Unity, Blender) Learning Databases (MongoDB, GraphDB, MySQL)	Agile/Scrum Methodology Version Control (Git) Unit Testing (Jest) Learning CI (Fabric, Travis)
-------------	---	---

Experience	Software Developer <i>Solstice</i> - Chicago, IL	July 2017 - October 2018
------------	--	--------------------------

- > Tech Lead developers in an Agile Environment to implement the FIDO security protocol for a client's mobile app login feature (React Native, Javascript, iOS, Android)
- > Integrate Native Mobile SDKs (Swift, Java) onto a React Native application
- > Architect features onto and refactor a production size codebase
- > Consult clients and business regarding technical changes to their mobile app experiences
- > Develop and demo technical showcases for potential clients
- > Review team PRs and keep and utilize Git for Version Control

	Software Development Intern <i>Solstice</i> - Chicago, IL	July - August 2016
--	---	--------------------

- > Architect tech for an augmented Ping Pong Table shown off to potential clients at a tech conference
- > Develop a tvOS app (Swift) to display scores from an AWS server
- > Develop a ball tracking program for the Microsoft Kinect (C#)
- > Give demos to potential clients and C-level execs

	Undergraduate Research Android Developer <i>Northwestern University</i> - Evanston, IL	June 2015 - June 2016
--	--	-----------------------

- > Develop an Android Application to capture filtered images
- > Observe and measure different outputs for the purposes of retrieving data

	Software Engineering Intern <i>Fidelity Investments</i> - Merrimack, NH	June 2014 - August 2014
--	---	-------------------------

- > Develop a web service in Java to run an automatic source code scanner remotely within the Technology Security and Risk Management division
- > Detect, identify, and resolve web security vulnerabilities such as those within the OWASP top 10

Education	Northwestern University McCormick School of Engineering B.S. Computer Science, 2017 Focus: Human Computer Interaction, Artificial Intelligence
