Stan Huang

Email: shuang2831@gmail.com   Boston, MA
Phone: (978) 376-3434   U.S. Citizen

Tech Skills

Fluent in C#, Java, Javascript, Rails, React, Ruby, Swift
Mobile Development (Android, iOS, React Native)
Web APIs (GraphQL, REST)
Databases (GraphDB, MySQL, PostgreSQL)

Agile/Scrum Methodology
Version Control (Git)
Unit Testing (Jest, RSpec)
CI (Fabric, Travis)

Experience

Full Stack Web Developer   December 2018 - July 2019
Follain - Boston, MA

> Develop and implement valuable e-commerce features on Follain.com's Frontend React Web and Backend Ruby on Rails applications such as product matchmaking, marketing managed homepages, and improved promotion handling
> Improve and enhance legacy codebases by making existing features both more reliable and scale-able through the re-architecture and modularization of code such as the site's checkout process
> Integrate a CMS into site features to allow the internal marketing and product teams more access and customization
> Work as a cross functional team in an agile environment to estimate and define features/changes in accordance with the needs of the business

Mobile Developer   July 2017 - October 2018
Solstice - Chicago, IL

> Tech Lead developers in an Agile Environment to implement the FIDO security protocol for a client's mobile app login feature (React Native, Javascript, iOS, Android)
> Integrate Native Mobile SDKs (Swift, Java) onto a React Native application
> Architect features onto and refactor a production size codebase
> Consult clients regarding technical changes to their mobile app experiences

Software Development Intern   July 2016 - August 2016
Solstice - Chicago, IL

> Architect tech for an augmented Ping Pong Table shown to clients at a conference
> Develop a tvOS app (Swift) to display scores from an AWS server
> Develop a ball tracking program for the Microsoft Kinect (C#)

Undergraduate Research Android Developer   June 2015 - June 2016
Northwestern University - Evanston, IL

> Develop an Android Application to capture filtered images
> Observe and measure different outputs for the purposes of retrieving data

Education

Northwestern University
McCormick School of Engineering
B.S. Computer Science, 2017
Focus: Human Computer Interaction, Artificial Intelligence
